

NEXTGEN IS COMING!

*U.S. Bankruptcy Court
Middle District of Georgia*

"Prepare now, and avoid delays logging in later!"

What's changing?

We will be upgrading our CM/ECF software to the Next Generation of CM/ECF (NextGen) in August. Benefits to attorneys/limited users will include one single username and password to log in to all NextGen courts (appellate, bankruptcy and district) where they have permission to file, and to PACER nationwide—a function known as Central Sign-On.

What you need to do now.

Get your own PACER account.

Each attorney/limited user must have his/her own individual PACER account. Shared PACER accounts will no longer be usable once the court has upgraded. However, firms may set up a PACER Administrative Account to help manage attorney/limited user accounts and have those individual accounts centrally billed for PACER access fees. View instructions on how to set up [an individual PACER account](#) or [a PACER administrative account](#).

—or—

Upgrade your existing PACER account.

If your PACER account was issued prior to August 11, 2014, you will need to upgrade it. To find out if your account needs to be upgraded, [go to the PACER website](#) and login with the attorney's current PACER credentials. Note the display in **Account Type**. If it is "Legacy," select **Upgrade**, and update the information.

What happens next?

You will be notified of the exact date for the implementation of NextGen as soon as it is known. Immediately before the go-live date, you will be provided with instructions on what you will need to do when logging into NextGen for the first time.

About Next Gen

For more information on the improvements and the upgrade process, including several Electronic Learning Modules, please visit <https://www.pacer.gov/nextgen>. Questions may be e-mailed to our helpdesk at gamb_nextgen@gamb.uscourts.gov.
